DPI-ECOSOC NGO (Special Consultative Status) No. 19885

Mission Statement

“Humanitarian Aid, Human Rights, Interfaith Dialogue, Peace-building and Sustainable Development”

1. Provide humanitarian aid to members of the Christian faith and those of other faiths, through physical, financial, and moral support.
2. Promote a dialogue based on the principles of peace and justice amongst and between the faiths of the Sons of Abraham and the other great religions of the world, to establish better understanding and greater tolerance, through our active participation in international and regional subject matter conferences sponsored by the United Nations, European Union, and the International Peace Bureau.
3. Mitigate human suffering by actively participating in programmes of disaster relief, humanitarian aid, human rights, peace building and sustainable development, and the respect of human diversity.
4. Broker conflict-prevention and resolution, our modern Order regularly engages in these types of activities just as our medieval predecessors did, through the use of subject matter experts and support of organizations in the field of religious and international diplomacy.

Please note: this “Mission Statement” is provisional and is pending approval from the OSMT Grand Magistral Council.
